12V 12Ah F2 SEALED LEAD ACID DEEP-CYCLE RECHARGEABLE BATTERY - 4 Pack

ML12-12F2 SLA is a 12V 12AH Sealed Lead Acid (SLA) rechargeable maintenance free battery, Pack of 4 - UL Certified

Dimensions: 5.94 inches x 3.86 inches x 3.98 inches; Terminal: F2; Listing is for the Battery only; No wire harness or mounting accessories included.

SLA / AGM spill proof battery has a characteristic of high discharge rate, wide operating temperatures, long service life and deep discharge recover

Good price, no shipping fee’s, prompt delivery.

Used it in a kids dune racer, fits in the designated battery compartment. Lasts a good while before it needs a charge

Dimensions are not the same as the gray power wheels battery but this mighty max fits the power wheels dune racer without adjustments. It fits vertically. I took the power adapter from the gray battery and used it for this battery after including a 30 amps fuse. The battery came charged so my daughter was able to ride right away and you can really see how powerful is this battery. Great replacement for a much better price.

Came as advertised and charged. Will have to see about longevity in the power wheels.

Good value, too early to rate longevity.

Don’t pay more than \$30. Just take the outer shell components off the old battery, order this one and slip it in, snap it all back together … it works great!
