

200ah lithium battery reviews

It's now the top-selling 200Ah LiFePO4 battery in the UK. We'll talk about why that's the case, and we'll do a full breakdown and analysis of its pros and cons. We'll ultimately provide an answer to the question: is it worthy of the hype?

This is our DC House Lithium Battery Review.

Specifically, we focus here on the 200Ah model; but every point is applicable to the other sizes of battery from this maker. The cells, components, casing, manufacturing processes are identical for each model, just with a different quantity of Lithium cells and casing dimensions.

We wrote as long ago as 2021 that LFP will take over the world of leisure batteries; not saying that was the wildest leap but there can be no doubt it's happening. Month by month, they're growing in popularity.

This model, by DC House, is one a new breed which provide a frankly ridiculous number of life cycles, to those of us who have had years of experience with lead-acid.

How accurate is that stated lifespan, and other such questions, we'll get into in this review.

If you want to check specs and price first, here's where to see that, on Amazon.

DC House are offering a 5% discount right now, use the coupon code: bfmkftan107

Voltage: 12V Capacity: 100Ah Weight: 11.5kg (25.4lb) Dimensions: 25.9 x 16.8 x 23.4cm (LxWxH)

Voltage: 12V Capacity: 50Ah Weight: 5.7g (12.7lb) Dimensions: 23.2 x 13.5 x 18.1cm (LxWxH)

What were the key determinants by which we analysed the DC House battery?

We assessed it for these characteristics:
