

210 kWh commercial solar battery storage

210 kWh commercial solar battery storage

The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership.

BSLBATT Commercial solar battery system boasts outstanding performance, making it versatile for applications in farms, livestock, hotels, schools, warehouses, communities, and solar parks. It supports grid-tied, off-grid, and hybrid solar systems, can be used with diesel generators. This commercial energy storage system comes in multiple capacity options: 200kWh / 215kWh / 225kWh / 241kWh.

Compartmentalized Design

The BSLBATT 200kWh Battery Cabinet utilizes a design that separates the battery pack from the electrical unit, increasing the safety of the cabinet for energy storage batteries.

BSLBATT C& I ESS Battery has the world's leading battery management technology, including dual integration of active and passive fire protection, and the product setup has PACK level fire protection, group level fire protection, and dual-compartment level fire protection.

314Ah / 280Ah Lithium Iron Phosphate Cells

Significant increase in energy density of battery packs

Advanced LFP Module Patent Technology

Higher Energy Efficiency

Guaranteed energy efficiency/cycle with high energy density design, >95% @0.5P/0.5P

The system is fully productized, integrating LFP ESS batteries, PCS, EMS, FSS, TCS, IMS, BMS.

Comprised of Tier one A+ LFP Cell with over 6000 cycles and a service life of over 10 years.
