24v deep cycle

15% OFF 12V 100Ah Battery &#8211; CODE: Cyber100 &#8211; EXPIRES: 12/3/24

### Dakota Lithium 24v 110Ah Deep Cycle LiFePO4 Single Battery

The single 24v DL 110Ah battery is ideal for deep cycle applications in marine environments where you need lots of power for a long time. Optimal for 24 volt trolling motors where weight and run time is at a premium or solar energy storage on boats, RVs, or off grid homes.

World beating, best in class, eleven year manufacturer defect warranty.

110 ampere hours (Ah). Dakota Lithium batteries provide consistent power for all 110 amp hours. DL LiFePO4 batteries have a flat voltage curve, which means they have a steady power output as the battery discharges. The power output will not dramatically drop like similar sized SLA batteries. You get all the juice down to the last drop.

24V rated (26.6V resting voltage) Dakota Lithium 24V batteries can be used in series for up to 48V systems.

50.5lbs (23kg). That's 70% lighter than a SLA battery.

Up to 80% capacity for 5,000 cycles in recommended conditions. The typical SLA has 500 cycles. Dakota Lithium batteries last so long that the price per use is a fraction of traditional batteries.

Ideal for rugged & harsh environments. Much better than SLA or other lithium's. -20°F min, +120°F max optimal operating temps (battery performs well down to -20°F). Avoid charging below 32°F.

50A max, 28.8V recommended, 30V max.

Contains a circuit that handles cell balancing, low voltage cutoff, high voltage cutoff, short circuit protection and high temperature protection for increased performance and longer life.

All batteries are UN 38 certified. Dakota Lithium's cells are UL1642 certified and have been tested per IEC62133 standards. Meets all US & International regulations for air, ground, train, & marine transport.
