

2s bms lifepo4

2s bms lifepo4

2s 6.4v BMS for Lithiumphosphate LifePO4 4A. Good Quality & Easy to make your own battery pack

Battery Pack Output 6.4V (2S Type) This BMS only Used For LifePO4, not For Lithium-Ion Batteries Deep Discharge & Over Charging Protection Come with nickel Strip

The FB Tech Lithium Iron Phosphate (LiFePO4) rechargeable cells are one of the most powerful and most stable cells available along with an amazing life cycle of more than 2000 cycles. The High Quality LiFePO4 is a 6000 mah cell, This Battery specially made for Electric Vehicles, this is also BIS certified Battery

The is Premium LiFePO4 Rechargeable Battery Pack is a 2s 1P battery pack with a nominal voltage of 6.4v and can be fully charged upto 7.3 V. This battery pack has 2cells in series which gives it a capacity for 1C (6A) The nominal capacity of the battery pack is 6000mah. The battery pack has an in-built BMS which prevents the battery from over charging also prevents it from overdischarging below .This Premium LiFePO4 Rechargeable Battery Pack is made using High Quality Lithium Iron Phosphate (LiFePO4) rechargeable cells which are one of the most powerful and most stable cells available along with an amazing life cycle of approximately 2500cycles.

1S 3.7V 5A BMS Board 18650 Li-ion Lithium Battery. Module name: 1S 3.7V Li-ion Lithium Battery 18650 Charger Protection PCB Board Maximum output current: 5A

18650 Single Battery Cell Spacer/Holder a cylindrical battery spacer, made by flame retardant ABS+PC materials, with high-temperature resistance and crack resistance. There are slots on the edge of the holder, can be combined into many different sizes and shapes of the battery pack; after welding nickel tabs, the pack can pass vibration test without any other connecting device. Making your battery pack Solid and Reliable! This Battery Holder is compatible with our 18650 Li-ION Batteries which you need to buy separately.

This product description 100% real capacity Nominal voltage: 3.7V Capacity: 2000MHASize: 18mm x 65.0mm Weight: 45g /pcs Battery

Build For Router UPS . The Premium NMC Rechargeable Battery Pack is a 3s battery pack with a nominal voltage of 12.6 v . This battery pack has 3 cells in series which gives it a capacity of 1C (2.2A) The nominal capacity of the battery pack is 2000mah. The battery pack has an in-built BMS which prevents the battery from overcharging and also prevents it from overcharging below. This Premium NMC Rechargeable Battery Pack is made using High-Quality Lithium-ion rechargeable cells which are one of the most powerful and most stable cells available along with an amazing life cycle of approximately 1000cycles.
