All You Need For Off-grid Living and Blackouts

When performing at temperatures between -10 to -20°C, the output power of the Explorer 3000 Pro will auto-adjust according to its remaining battery level

Weighing just 63.93 lbs, Jackery's all-new Explorer 3000 Pro is 30% lighter and smaller than similar products of the same capacity.

The Jackery Explorer 3000 Pro Portable Battery is estimated to have over 70% of your original capacity after 2000 cycles, with a gradual reduction after that. (Note: this doesn't mean the battery only has a 2000 cycle life span. It means that up until 2000 cycles, the unit can perform at its best. However, due to battery degradation there will be a gradual decline in performance after 2000 cycles.)

We provide a 3 year warranty for the Explorer 3000 Pro, with an option for an additional 2 year extension if purchased directly from Jackery or through Amazon. Please register your item on our official website: <https://support.jackery/extend-warranty>

The Jackery Explorer 3000 Pro can run any device that requires less than 120V and 3000W. You can calculate the charge time using the following formula: $3024\text{Wh} \times 0.85 / \text{operating power of your device}$.

Yes, the Explorer 3000 Pro supports pass-through charging without damaging the battery.

Yes, the Explorer 3000 Pro has an internal MPPT controller.
