

50 kWh home energy storage battery pack

50 kWh home energy storage battery pack

Introducing the 50kWh Battery Pack, specially designed for home solar energy storage systems. Consisting of 5 pieces of 48V 200Ah batteries, this pack offers a total of 48V 1000Ah in a standard server rack 19" x 48" x 24". With a long lifespan and 50kWh energy capacity, the Coremax lithium battery bank is ideal for powering your home with clean and renewable energy.

This battery pack is not only lightweight but also space-saving, making it easy to install and move around as needed. As we supply directly from our factory, we offer a highly competitive price for this 48V 1000Ah battery system.

Investing in the Coremax 50kWh Battery Pack means you can enjoy uninterrupted power supply, lower energy bills, and a cleaner environment. Our pack is built to last, ensuring years of reliable performance without the need for costly maintenance or replacements.

At Coremax, we are committed to providing high-quality and cost-effective energy solutions to meet the unique needs of our customers. Contact us today to learn more about our custom OEM services and support options.

Note: Price shows based on bulk order for distributors or installer. Not include shipping. Please contact us for personal project inquiry.

This 50kwh home battery system built in BMS with LCD display. Besides all basic protections, Coremax 50 kwh lithium battery bank compatible with Most popular brand inverters, like Sol ark 13Kw or even higher models. This Battery system built in a LCD shows the details of this battery pack including information:

CMX as a leading server rack and Powerwall Home Battery Manufacturer in China. We focus on LiFePo4 battery, known as LFP battery, which is the longest lifecycles and safest chemistry of all kinds of lithium battery. Our home Battery Backup reach 8000 cycles at 100%DOD. Coremax offer very good price with top quality, our powerwall home battery is 10years warranty. our battery compatible with nearly all kinds of Inverters, SMA, Solar edge, Sunny island, Deye, Growatt, Goodwe, Outback etc. look for distributor

Home batteries are used to store energy from your solar panels to use overnight or at times when the weather is overcast. It's an emerging area for many areas, and Coremax 50 kwh Solar energy lithium battery system resolve all problem while your solar panel can't generate enough power for your home applications. Or it will connecting energy for your over night electric needs. It is a perfect battery system when you need replace your retired lead acid or AGM batteries.

50 kWh home energy storage battery pack

Thinking about energy independence and reducing the stranglehold electricity companies have over you? If you are, then COREMAX can help you achieve this goal with home battery systems and energy storage. That is solar energy battery power.

This 48v 50kwh battery storage system suitable for home and works perfectly to power on grid or off grid solar system. If you already have a hybrid inverter, please tell us the model, and we can make sure our battery system works and communicate with your existing hybrid inverter. If you don't have an inverter yet. We can provide a perfect hybrid inverter 120v/240v split phase model. Can meet most of the residential needs. In addition, this battery system can power the AC DC hybrid air conditioner

Constant Current: $\leq 0.5C$ Constant Voltage: 3.65V End Condition (Cut off):

An on-grid solar system is a solar power setup directly connected to the public grid. The electricity generated by this system is primarily used to fulfill the immediate power needs of your home or business. During periods when your solar panels are not generating electricity, such as at night, the utility grid seamlessly supplies your electricity requirements.
