

72 volt 100ah lithium battery

72 volt 100ah lithium battery

The 72V 100AH battery is the most powerful 72V battery we carry. Extended power and hours of use on 72V propulsion marine electric motors. Also great for 72V golf carts, solar systems, warehouse working vehicles and forklifts. One single module 72V100AH weights less and occupies less space than any six 12v100AH lithium batteries connected in series. It is better to use the right voltage battery for your application than connecting lithium batteries in series. Parallel connection to increase capacity is fine. Buy it now!
