Compare market size and growth of Nigeria Renewable Energy Market with other markets in Energy & Power Industry

Click on data point to dive deeper into the details and uncover valuable insights about each segment.

We've received your request. Our team will be reaching out to you shortly.

The Nigeria Renewable Energy Market size in terms of installed base is expected to grow from 3.13 gigawatt in 2024 to 5.01 gigawatt by 2029, at a CAGR of 9.88% during the forecast period (2024-2029).

In the long term, favorable government policies to promote renewable energy generation and advancements in renewable energy technologies are also expected to drive the market's growth.

On the other hand, increasing penetration of natural gas for power generation is expected to restrain the Nigerian renewable energy market between 2024 and 2029.

The technological advancements in solar PV manufacturing will likely create lucrative growth opportunities for the Nigerian renewable energy market from 2024 to 2029.

Renewable energy is the energy collected from renewable resources such as sunlight, wind, water movement, and geothermal heat that are naturally replenished.

The Nigerian renewable energy market is semi-consolidated. Some of the major players in the market are Engie SA, TotalEnergies SE, Starsight Energy, Enel SpA, and North South Power Co. Ltd.
