## Alternative electricity suppliers for businesses

Your business has the power to choose its commercial electricity plan thanks to energy deregulation. The easiest way to shop for a commercial electricity plan is by using the Choose Energy marketplace, which does the work for you to find the best energy providers for your business. Here's how:

We provide a variety of pricing options for electric, natural gas, and renewable energy products tailored to your business needs. Businesses that spend more than \$5,000 per month on energy should call the number on the screen for a free quote, while businesses that spend less than \$5,000 can call our team or submit their business online.

If you need more resources to help you with your commercial energy plan, use our energy buying guide to learn more about plan types and how to reduce your electricity bill. To get started, fill out the following form or call the number on your screen.

Choose Energy partners with top business electricity companies, including TXU Energy and Ambit Energy, to offer competitive options tailored to your needs. Our consultative approach helps you access the best business electricity rates for your needs. When you contact our team, we guide you through the decision-making process, and our experts will help you compare offers from each provider based on the following factors:

Take the guesswork out of choosing a business electricity plan and contact our team today to secure the best energy plan for your business.

Businesses have the power to choose a commercial energy plan in most deregulated energy markets. When you select your business electricity supplier, you can secure an affordable energy rate to optimize your budget. We work with the best energy suppliers for businesses to help you compare and find cheap commercial energy rates.

Business energy rates depend on your monthly usage, peak consumption times, and various other factors. The current average U.S. commercial energy rate is 13.39 cents per kilowatt-hour (kWh), according to the latest Energy Information Administration data (EIA).

Call (855) 404-2027 to contact our business energy experts. They can guide you through the process and help you enroll in one of the best commercial electricity plans tailored to your business needs.

With experience in helping over 7,500 businesses nationwide (and counting), we have the expertise to help you take advantage of competitive rates, long-term plans, and renewable energy options offered by our partnered retail energy suppliers.
