

Ankara electric vehicle charging infrastructure

Ankara electric vehicle charging infrastructure

Welcome to our webpage dedicated to electric vehicle charging stations in Ankara, Turkey! Whether you're a local EV owner or a visitor, our goal is to provide you with a comprehensive guide to finding the best charging stations in this vibrant city. Ankara, known for its rich history and modern infrastructure, has embraced the electric vehicle revolution, offering a growing network of charging stations to cater to the needs of eco-conscious drivers.

PlugShare employs a color-coded system on its map to convey charging station information:

No pins on the map? Unfortunately, Plugshare users haven't reported any charging stations.

To learn about the charging costs at any location on the map, simply click on the pin icon. You'll see a cost field that displays pricing information contributed by fellow charger users. Occasionally, you can also find pricing details included in the charger's description. However, please keep in mind that pricing information may not be available for certain locations.

Click on a specific charging station pin on the map and look for information about the types of connectors available. If it's Tesla-compatible, it should list Tesla-specific connectors. You may also find information in the reviews and comments on the location.

The score assigned to a charging station reflects user experiences, rated on a scale of 1 to 10, with 10 being the best. Negative user feedback lowers a station's score, whereas positive feedback raises it. Scores remain unaffected by neutral comments or check-ins. For deeper insights into the score's basis, we encourage you to read comments for each location. You can access PlugScores via the Station Summary icon on the map.

Potential EV Day Trips from Ankara, Turkey One interesting driving destination from Ankara, Turkey that is suitable for an electric vehicle is Cappadocia. Located approximately 280 kilometers southeast of Ankara, Cappadocia is famous for its unique rock formations, underground cities, and hot air balloon rides. With an electric vehicle, travelers can explore this enchanting region while minimizing their carbon footprint. The relatively short distance allows for a comfortable drive, and there are charging stations available in major towns along the way, ensuring a hassle-free journey.

Another popular driving destination from Ankara suitable for an electric vehicle is Bolu. Situated around 200 kilometers northwest of Ankara, Bolu is known for its stunning natural beauty, including dense forests, lakes, and mountains. With an electric vehicle, travelers can enjoy the scenic drive through the picturesque

landscapes while contributing to a cleaner environment. Bolu offers several charging stations, allowing EV owners to recharge their vehicles during their visit. Additionally, Bolu is home to various eco-friendly accommodations and outdoor activities, making it an ideal destination for sustainable tourism.

Note these are suggestions only – please ensure you check the charging infrastructure prior to your journey.
