Battery electric vehicle

Specific fuel consumption

Turbine inlet temperature

Worldwide harmonized lightweight test protocol

The authors would like to thank Technology Strategy Board for providing the funds and support for this research project (TSB Project No: 400224). The authors would also like to thank the project partners, Jaguar Land Rover and Bladon Jets Ltd. for providing technical support. Finally, a special thanks to all Vehicle Engineering Facilities technicians at University of Warwick for their assistance in performing the tests.

On behalf of all the authors, the corresponding author states that there is no conflict of interest.
