Top Picks for the Best LiFePO4 Batteries

In this article, I will compare the best lithium batteries.

I will tell you which one to choose based on these criteria:

These are the best LifePo4 batteries

LiTime is known as Ampere Time. They have re-branded their battery line-up.

They have two versions, the normal and the mini. The mini uses pouch cells, while the normal version uses prismatic cells. Prismatic cells will last longer but are a bit bigger. I recommend using their normal version. This is the most value for money you will get. Here are a few remarkable features of this pricepoint:

There are two other models for this battery.

Use promo code `‘cleversolarpower’` at checkout and receive a 3% discount at the official LiTime store.

If you use the battery in freezing temperatures, I recommend getting the version with a built-in heater.

LithiumSolar reviews the Smart Battery with a low-temperature cutoff in the following video.

Choose the basic version if you want the best budget LiFePO4 battery (also called lfp battery). There is no Bluetooth connectivity and no low-temperature protection.

If your battery needs to be capable of absorbing vibrations or shocks like in a vehicle, then I recommend using the SOK Lithium battery.
