

Best 100ah lithium battery

Best 100ah lithium battery

Even if you'd classify yourself as a "minimalist RVer", you probably like to have full functionality of all your appliances.

If you like to visit remote locations, however, that means relying solely on the generator and batteries in your RV to power those appliances.

But if you need to replace (or simply want to upgrade) your existing batteries, there are several reasons to consider a lithium RV battery.

Lithium batteries last longer than their lead-acid counterparts. So if you want a reliable battery to keep your appliances running for your next decade of boondocking, you'll want to consider all of your lithium RV battery options.

Fortunately, you've come to the right place to start sorting through the battery options currently on the market.

As we dive into these reviews, you may start to notice that there's not a whole lot that separates these batteries from one another.

But pay close attention to what we liked and didn't like about each battery and then consult our Buying Guide for direction on how to compare and contrast these battery options.

Here are our top 6 picks for the best lithium battery is an efficient power-packed with a longer lifespan & deeper depth of discharge:

If you're looking for the best overall lithium RV battery that will work in a variety of RVs, look no further than the Weize 12V 100Ah LiFePO4 battery.

Because there's no acid inside, it can be mounted in any direction and you won't need to worry about leakage.

This battery weighs just 26.4 pounds, which is less than one-third of the weight of your typical lead-acid battery.

This Weize battery includes a built-in battery management system (BMS) that protects it from overcharging, overloading, overheating, and deep discharge.
