

Brussels retail store energy storage

In Belgium, we are a major player in the refining, petrochemical, polymer recycling and electric mobility sectors. We also supply natural gas and local green electricity across the country. In Belgium, the Company supports educational projects and initiatives tackling social exclusion, while cooperating with various associations. We are also a loyal partner to a number of major cultural events.

In Belgium, we operate several renewable electricity generating assets, including the Rentel offshore windfarm (as part of a PPA) in the North Sea and the Plate-Taille hydropower plant (usage concession with Sofico for storing the electricity generated by the dam).

We are developing two battery-based electricity storage projects in the country:

With these two projects, our battery electricity storage capacity in Belgium will reach 50 MW/150MWh.

We are also developing solar power plants across the country.

In Belgium, we own an integrated refining and petrochemical complex in Antwerp. This facility is one of the most efficient in Europe.

We also operate the Feluy facility, which produces polymers and houses our R& D activities (OneTech), particularly focusing on catalysts and polymer recycling.

Lastly, we have several petroleum product storage depots.

In Belgium, we supply our business customers with natural gas and electricity, and we offer electric mobility services with charge points and solar panels installed at their sites.

We retail specialty, petroleum and petrochemical products in the country. We also have a network of approximately 570 service stations through a joint venture with Alimentation Couche-Tard, where we retail our fuel and products, and offer related services.

We also operate fast and ultra-fast charge points, mainly along highways, as well as the public network across Belgium, especially in Brussels, Antwerp and Ghent. We are also active in the other segments of the electric mobility sector, such as at home, at the office and in private spaces. Lastly, we supply natural gas and local green electricity to our residential customers.
