

## Chargepoint price per kwh

Station owners or roaming partners may choose to charge by the kilowatt hour (kWh), by the hour, using a flat fee, minimum or maximum fee, or an overnight or idle fee. Some connections offer discounted pricing. Some station owners charge one price for the first hour or two of charging and a different price thereafter.

Tesla's Supercharger network and ChargePoint are the cheapest options for EV charging without a paid membership. Membership plans for EV charging networks usually come with a monthly fee. Different charging networks have varying fees based on factors like cable type and idle fees for leaving your car connected after charging.

2. In the ChargePoint app, open the main menu and select Home Charger. 3. Choose Settings. 4. Tap Utility Plan and Utility Price to customize your rate. 5. Tap the numbers and manually enter the rate you pay for electricity per kWh (often between \$0.10-\$0.30). Make sure there is a leading zero before the decimal.
