

Commercial solar leasing programs

Commercial solar leasing programs

Commercial solar loans allow building owners to take advantage of tax credits ...

If your business is ready to make the move to reduced energy costs and clean energy, but do not want to expend your valuable capital to do it, Solar Source's lease program is a great alternative.

Our leasing program is designed to help our customers move into solar without having the burden of the up front cost of the solar installation and equipment.

We offer flexible terms usually from 5 to 7 years and our rates are typically between 7-9%. Lease amounts are between \$10,000 and \$5 million. Municipalities and larger companies with exemplary credit may be eligible for extended terms and lower rates.

Our in-house Professional Engineering and Design team provides value-based engineering & custom designs.

Trained and Certified Professionals provide exceptional craftsmanship while focused on workplace safety.

39 years and counting makes us the ideal team to Operate & Maintain your system for its entire lifetime.
