About Solar Solution, the largest residential and commercial solar installer in ...

Solar Solution is an Equal Opportunity / Affirmative Action employer committed to ...

- Apply for a Community Solar subscription to lower energy costs (for renters, condo and apartment dwellers, and homeowners)
- Apply for a Solar Roof on your single family home (for homeowners)

The District's Sustainable DC initiative establishes goals and targets for responding to climate change. Additionally, the Clean Energy DC (CEDC) Omnibus Act of 2018, raised the percentage of solar energy carve out in the District from 5% to 10% by 2041. Conventional forms of energy emit carbon dioxide and other pollutants into the environment, while solar energy is emissions free.

Rooftop solar generation is the leading strategy for generating local, clean energy in the densely developed District. Installing solar panels on your home or business is one way that you can help the District achieve its greenhouse gas emission reduction goals. In addition, rooftop solar not only benefits the environment but it can also reduce your annual energy costs.

Solarize DC is a community-based outreach initiative to bring solar power to District residents in their homes and businesses throughout the city. Many residents are interested in solar but do not know where to start. DOEE has teamed up with EnergySage to help District residents make the switch to solar energy by installing solar panels on their property or subscribing to a local community solar farm. View EnergySage resources and information below. Got questions? Reach out to our team at [email#160;protected].

As part of its first Solar Switch Capital Area program, DOEE is helping homeowners and small businesses to get a quality rooftop solar installation. Using group buying and the nonprofit Solar United Neighbors' expertise, Solar Switch makes sure participants get a great deal on solar and battery storage. Read More>>

View a map that is intended to estimate buildings' solar potential in Census tracts with median incomes less than or equal to 80% of area median income. Read More>>
