Note: EcoFlow BKW-Battery Cable is sold separately and is needed when connecting a PowerStream Microinverter with an EcoFlow Portable Power Station.

* On all RIVER Series Portable Power Stations, DELTA mini, and DELTA (1300), the car charging port is for streaming output into the microinverter, while the solar input port is for solar recharge. The car charging port is the only way for these portable power stations to connect with the microinverter. Due to the limitation of the car charging port, these power stations are subject to an output limit of 100W.

Lightweight. Compact. Stylish.

On all RIVER Series Portable Power Stations, DELTA mini, and DELTA (1300), the car charging port is for streaming output into the microinverter, while the solar input port is for solar recharge. Due to the limitation of the car charging port and the fact that it's the only port for connection with a microinverter, these said portable power stations are subject to an output limit of 100W.

PowerStream Microinverter is compatible with all EcoFlow Portable Power Stations but it requires different cables for connection: 1. DELTA 2, DELTA 2 Max, DELTA 2 Max Extra Battery, and DELTA Max with EcoFlow BKW-DELTA EB Cable 2. DELTA Pro and DELTA Pro Extra Battery with EcoFlow BKW-DELTA Pro Cable 3. RIVER Series Power Stations with EcoFlow BKW-RIVER Cable
