Solar plans and packages for every budget. Get power independence with a Vivint ...

*Requires customer's execution of a Smart Home Agreement with Vivint for ...

Solar prices continue to drop as technologies continue to advance, ...

Solar inverters last approximately 10 to 15 years--a shorter life span than solar ...

"Welcome, Vivint Solar employees and customers," said Lynn Jurich, Sunrun's Chief Executive Officer and co-founder. "Together, we will provide affordable, reliable and clean electricity at an exciting new scale. With our compelling services, millions of homeowners will rewire their homes with solar and batteries to enjoy enhanced comfort and affordability. The combined company benefits from broad market reach and differentiated consumer offerings. A lower cost structure from greater scale will accelerate the transition away from polluting and unreliable fossil fuels."

Sunrun will be a meaningful contributor to a fully renewable and electrified energy system. Our growing fleet of solar homes and batteries will be networked to provide greater benefits to the grid and energy consumers. Generating energy at the point it is used reduces the need for dirty energy being produced far away that is increasingly expensive to transmit. Our customers have already and will continue to help shut down inefficient carbon-producing power plants.

Over the coming months, product offerings will be transitioned to offer customers the best solutions, including expanded access to Sunrun's leading Brightbox rechargeable battery solution which enables homeowners to power through grid outages. Vivint Solar will continue to operate as a Sunrun company for the immediate future and will be integrated into the Sunrun organization over the coming quarters. Sunrun estimates annual cost synergies of approximately \$90 million to be realized over 12 to 18 months.

As previously announced, Vivint Solar stockholders will receive 0.55 shares of Sunrun common stock for each share of Vivint Solar common stock they own immediately prior to the consummation of the acquisition. The combined company will continue to trade on The Nasdaq Global Select Market under the ticker symbol RUN. Post-closing, Sunrun now has a market capitalization of approximately \$17 billion based on the closing prices of Sunrun common stock on October 7, 2020 and an enterprise value of approximately \$22 billion on a fully-diluted basis pro-forma for the transaction as of the most recently reported quarter.

About Sunrun

Sunrun Inc. (Nasdaq: RUN) is the nation's leading home solar, battery storage, and energy services company.

Ecuador vivint solar

Founded in 2007, Sunrun pioneered home solar service plans to make local clean energy more accessible to everyone for little to no upfront cost. Sunrun's innovative home battery solution, Brightbox, brings families affordable, resilient, and reliable energy. The company can also manage and share stored solar energy from the batteries to provide benefits to households, utilities, and the electric grid while reducing our reliance on polluting energy sources. For more information, please visit

Market capitalization calculated using the closing price of Sunrun common stock on October 7, 2020 multiplied by approximately 138.7 million fully diluted shares of Sunrun and approximately 138.5 million fully diluted shares of Vivint Solar as of October 7, 2020 multiplied by the exchange ratio of 0.55 per share. Enterprise value calculated using the closing price of Sunrun common stock prices on October 7, 2020 multiplied by the above mentioned fully diluted share amounts, less cash, plus debt, total lease and pass-through financing obligations, and total minority interests, each as of June 30, 2020.
