We're committed to testing and reviewing products so you can make an informed decision. Advertising does not influence our product reviews and it never will. We always focus our coverage on standout products and never hesitate to mention their flaws and quirks. By using our affiliate links, you're supporting our work and helping us continue to provide expert analysis. Find out more about our product evaluation process.

By signing up you agree to our [Terms of Service](#) and [Privacy Policy](#).

Articles may contain affiliate links which enable us to share in the revenue of any purchases made. Registration on or use of this site constitutes acceptance of our [Terms of Service](#).

No featured offers available

We feature offers with an Add to Cart button when an offer meets our high standards for: Quality Price, Reliable delivery option, and Seller who offers good customer service "No featured offers available" means no offers currently meet all of these expectations. Select [See All Buying Options](#) to shop available offers.

Wallbox is a global company, dedicated to changing how the world uses energy in the electric vehicle industry. Wallbox creates intelligent charging systems that combine innovative technology with outstanding design and manage the communication between vehicles, grids, buildings, and chargers.

We have headquarters all over the world, assemble our Pulsar Plus chargers in the USA, and have a world-class customer support team based in the US.

Wallbox provides bundles for homes and businesses. Minimal design, easy installation, and convenient smart features.

Walbox future-proofs your EV charging. Our technology allows you to charge your EV with solar energy and lets you charge your EV based on your home's real-time power demand.

Electric car fast charger home

Wallbox is a smart charging company on a mission to liberate the world from fossil fuels. To transition towards a world powered by renewable energy, transportation has to be electric.
