

Electric vehicle infrastructure malta

EFAPOWER EV- Public Charger stations are able to charge all electric vehicles compliant with AC (Alternating Current) charging system standards. The Medium speed AC recharging pillar requires a three phase supply which is able to deliver electricity at a maximum power output between $7.4 \text{ kW} \leq P \leq 22 \text{ kW}$.

The Fast AC charging pillar, also requires a three phase supply, delivering electricity at a maximum power output, $P \geq 22 \text{ kW}$. Both chargers for L-category electric vehicles above 3.7 kW are equipped, for interoperability purposes, with 2 socket-outlets or vehicle connectors of Type 2 as described in standard EN 2-62196.

Off-peak hours: Between 00:00am and 05:59am and between 12:00pm and 15:59pm, and on Sundays all day (i.e. between 00:00am and 23:59pm)

Through the Charge My Ride Mobile Application, a user has to register their account to be able to successfully charge their electric vehicle in one of Malta's publicly accessible charging infrastructure. This registration will facilitate the payment process for the user and allow the system to notify the user of any updates or news.

Permezz tal-Applikazzjoni Mobbli ta' Charge My Ride, l-utenti jridu jirreżistraw il-kont tagħhom sabiex jirnexx ilhom jiġi jaw il-vettura elettrika tagħhom f'waħda mill-infrastrutturi tal-iġar aħessibbli g'all-pubbliku f'Malta. Din ir-reżistrazzjoni se tiffaħilita l-proċess ta' pagament g'all-utent u tippermetti lis-sistema tinnotifika lill-utent bi kwalunkwe aħornament jew aħbar.
