Once a primary source of power generation, able to efficiently produce power around ...

Clean, Safe, Reliable & Affordable

Energy is essential to all our lives, and our diverse generation portfolio and dedicated, world-class workforce are committed to providing clean, safe, reliable, and affordable energy to Georgians - 24/7/365.

Plant Vogtle Units 3 & 4 deliver on our commitment to safe, clean, reliable, and affordable energy by bringing the next generation of advanced clean energy to Georgia.

Discover how one of the cleanest, most environmentally safe sources of renewable energy is generated while helping create lakes for swimming, boating, and fishing throughout the state.

Coal has powered the world for hundreds of years. Once a primary source of power generation, able to efficiently produce power around the clock, Georgia Power has closed most of its coal power plants over the past 15 years.

Created by the Georgia General Assembly in 1975, MEAG Power provides reliable, competitive wholesale electricity to its 49 member communities (Participants), who own and operate their local electric distribution systems. MEAG Power also monitors and advocates on energy issues at the state and federal levels on behalf of its Participants.
