UNDERSTANDING YOUR ELECTRICITY BILL. The electric bill - it comes once a month. Most of us glance at the balance due, and make plans to pay that amount. But the electric bill is more than just the amount owed. The bill is full of information that can be useful in helping you better understand your electric usage.

Malaysia electricity prices. The residential electricity price in Malaysia is MYR 0.221 per kWh or USD 0.049. The electricity price for businesses is MYR 0.578 kWh or USD 0.129. These retail prices were collected in March 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

There are also different tariff rates for different categories, so check it out and ...

Your electricity supply will be reconnected on the same day if payment of all TNB ...

Tenaga Nasional Berhad (TNB) has recently announced a retargeting of electricity subsidies which will take effect starting next week for consumers in West Malaysia. According to TNB, the latest revision will not affect 85% of domestic customers in Peninsular Malaysia. That means the remaining customers with high electricity usage will see a potential price hike in their TNB bill.

Effective 1st January 2024, the Imbalance Cost Pass-Through (ICPT) rebate of RM0.02 per kWh will only apply to domestic users who consume up to 600kWh of electricity per month between 1st January to 30th June 2024. At the moment, until 31st December 2023, the RM0.02 per kWh rebate is applicable for domestic electricity consumption of 1,500 kWh and below.

If you're currently consuming more than 1,500kWh of electricity per month, there are no changes as the surcharge of RM0.10 per kWh remains unchanged for the period between 1st January to 30th June 2024.

If you're wondering how much you will have to pay for electricity with the new ICPT rebate revision, TNB has an electricity forecast calculator which provides you with a clearer view of what to expect to pay based on your usage. As mentioned earlier, domestic users can still get to enjoy the RM0.02 per kWh rebate if their monthly electricity bill is 600kWh or less. You can check your total monthly consumption from the TNB

Electricity rates malaysia

app or your recent bill.

The tiered domestic rate remains unchanged at RM0.218 per kWh for usage of 200kWh and below. This is followed by RM0.334 per kWh for 201-300kWh, RM0.516 per kWh for 301-600kWh, RM0.546 per kWh for 601-900kWh and RM0.571 per kWh for 901kWh and above.

According to TNB's calculator, domestic users with a total consumption of 300kWh will be billed RM71.00 while consumption of 500kWh will be billed RM170.20. The amount includes both the service tax as well as the ICPT.
