

Electricity safety singapore

To improve electrical safety for all households, EMA has mandated that all ...

Safe work procedures must be followed when performing maintenance and repair works on electrical equipment.

The Lock-Out Tag-Out (LOTO) system must be implemented. The system should cover the following actions minimally:

For more information, refer to the activity-based checklist on safe electrical maintenance work (PDF).

NOTE: Only Licensed Electrical Worker (LEW) should perform electrical maintenance and repair works. To know more about LEW, visit the Energy Market Authority (EMA) website.

Please refer to the WSH (Approved Codes of Practice) Notification 2023 for the full list of approved Codes of Practice.

WSH Council - Thank you for visiting our website. Please help us improve further by participating in our customer survey.

A Singapore Government Agency Website How to identify

Government agencies communicate via .gov.sg websites (e.g. go.gov.sg/open). Trusted websites

Look for a lock () or https:// as an added precaution. Share sensitive information only on official, secure websites.
