investing US\$100 million+ in energy transition assets

Exploring eight key questions on energy transition investment and the organizations shaping the future of energy.

Explore the growing focus on energy efficiency, renewable energy, and infrastructure upgrades as drivers of investment.

Examine the regulatory, technological, and financial risks that investors must manage in order to succeed.

Discover why East Asia, Europe, and North America are leading the charge, and which emerging markets are becoming investment hotspots.

Learn how collaboration across sectors, including public-private partnerships, is key to managing the risks associated with energy transition projects.

Understand the balancing act between renewable energy growth and the ongoing necessity of fossil fuels for energy security.

Gain insights into the future of energy transition investment, including anticipated growth in energy efficiency, renewables, and transportation infrastructure.

This content may contain information specific to member firms of the KPMG global organization in the following countries: South Africa, Mozambique, Zambia, Namibia, Botswana, Zimbabwe, and Mauritius. For more detail about the structure of the KPMG global organization, please visit <https://kpmg/governance>.

KPMG is the brand under which the member firms of KPMG International Limited (KPMG International) operate and provide professional services. Each firm is a separate legal entity and together they form the KPMG global organization. "KPMG in Southern Africa" is used to refer to the individual member firms within the KPMG organization in Mozambique, Zambia, Namibia, Botswana, Zimbabwe, Mauritius, and South Africa. The member firms comprising KPMG in Southern Africa are not a global partnership, single firm, multinational corporation, joint venture, or in a principal or agent relationship or partnership with each other.
