Novel Storage Concepts to increase RES penetration in autonomous systems. The case of Cyprus- Scientific article

Mapping of the Cyprus energy storage potential. Implications in the penetration of renewables and the operational mode of the conventional units.

SREC Workshop 18.01.2021 -Mapping of the Cyprus energy storage potential. Implications in the penetration of renewables and the operational mode of the conventional units

SREC Workshop 18.01.2021- Meeting Cyprus’ future electrical energy demand in a cost optimal way, under various RES penetration scenarios

SREC Workshop 18.01.2021-Novel Storage Concepts to increase RES penetration in autonomous systems. The case of Cyprus

SREC Workshop 18.01.2021- IRENA_ESVF_Cyprus - How to design a regulatory framework for electricity storage using open-source modeling tools the IRENA Electricity Storage Valuation Framework and its implementation

SREC Workshop 18.11.2021 - MECI presentation - Modelling of the Energy System of Cyprus and the role of Storage

SREC Workshop 18.11.2021 - CERA presentation- Regulatory framework for storage

Simulation of an isolated system behavior at high RES penetration coupled with storage (Scientific Paper)
