Out of the list of things to check before going to a new country, electricity and what power adapter to use is essential! Will you be able to charge your phone in Fiji? Can you safely charge devices off the mains in Fiji?

What most travellers need to know is that Fiji uses an electrical current of 240 volts 50 Hz and accepts Type I (i) plugs, so if your appliances don't fit the electrical outlets and/or require a different voltage or frequency, then you're going to need a travel adapter and maybe even a converter. Makes sense? If not, this in-depth guide on the electrical outlet in Fiji will make it so.

Just a quick note: our tips come from travel writers who've visited Fiji, not from AI or copied sources. Scroll down to learn more about our team and our genuine travel experiences.

If you only have a minute, here's what you need to know about plugging in and powering up during your island getaway:

Now, let's dive into the nitty-gritty of Fiji's power plugs and electricity situation to ensure you're fully prepared for your island adventure.

The power plugs and sockets in Fiji are of Type I. This is a three-pronged plug with one vertical prong and two slanting prongs. Some electrical appliances plugging into a Type I sock only have two slanting prongs.

The Type I (i) power plug/socket is the type of power plus found in the following locations:

We've noticed that USB plug sockets are not super popular in Fiji yet, so it's best to rely on the Type I plug socket for connecting your electrical devices to the mains power supply.

We strongly recommend that you buy a power adapter before arriving in Fiji. In our experience, power adapters take some effort to find once you arrive in Fiji. Check out some of our favourite Type I travel adapters in the 5 Best Travel Adapters for Fiji.
