This Freedom Won Lite Home LiFePO₄ battery is the perfect high quality battery for all your residential and industrial solar solutions. The range is from 5KWh to 30KWh batteries.

These models have the same performance as the previous F-WON-L-HOME-10-8-N version, however there are some slight changes to the form factor of these units. The reason for this minor modification is due to a shorter manufacturing time on the cells that we use for these batteries. These units can be paralleled with the previous versions :F-WON-L-HOME-10-8-N

Modular LiFePO₄ energy storage from your trusted high performance battery partner.

The following specification pertain to the Freedom Won eTower modular stackable battery, designed for smaller residential and light commercial applications with options of 1,2,3, or 4 modules in a tower per system.
