

## Germany solar industry

### The Photovoltaic Industry in Germany

German solar panel manufacturers are working with lawmakers to rejuvenate the industry in Europe. They are seeking to counter China's dominance of the industry with tax incentives and legislation.

Melissa Eddy is based in Berlin and reports on Germany's politics, businesses and its economy. More about Melissa Eddy

Here you will find a summary of current figures from the German solar industry.

The dynamic growth of solar energy in Germany can be shown in numbers. In this section, you can find fact sheets that summarize the most important market indicators for the German photovoltaic, solar thermal and solar battery storage market.

### Fact sheet photovoltaics (PDF)

EuPD Research gathers price data for PV modules and PV systems for BSW Solar on a quarterly basis. The data stems from interviews with solar installation companies and an evaluation of offers made to end consumers on online portals. The following data is gathered in the German PV Price Monitoring:

EuPD Research gathers price data for solar battery storage systems on a semi-annual basis for BSW Solar. The German Solar Battery Storage Price Monitoring summarizes price data of the most important battery storage market segments. To that end, EuPD Research interviews 80 solar installation companies and summarizes developments in a price index. In addition, the following data is gathered in the German Solar Battery Storage Price Monitoring:

By subscribing, solar installation companies and dealers can gain important insights for their price calculations. Members receive this BSW product at a preferential price.

Our member companies receive fast and reliable industry information, internal market data and studies through regular German Solar Association decision-makers' reports, information papers and publications. For example, our member companies receive quarterly market analyses of:
