

Inverex 6kw hybrid inverter

Inverex 6kw hybrid inverter

The Inverex Nitrox 6kW hybrid on-grid inverter has dual MPPT and it is compatible with solar panels up to 600 watts. You can attach up to 7800 watts of solar panels with this latest model of Inverex 6kW inverter solar system. Today's Inverex Nitrox 6kW inverter price in Pakistan 2024 is 361000 and the user manual of this inverter comes with its packing.

By reading the user manual, you can set different settings according to your needs. You can also read its technical datasheet and specifications in PDF format. The alarm of a fault code / error code description is listed below with a fault reason.

Canadian 540 Watt Solar Panel

This is the single-phase 48-volt on-grid inverter model and you can feed the electricity to the grid station. In this way, you can save your electricity bills at the maximum level. Inverex Nitrox 6 kW solar inverter also has a net metering feature and it gives an efficiency of 97.6%. This model has different in-built protections including Surge Protection, PV Input Lightning Protection, Anti-Islanding Protection, PV Arc Fault Detection, Insulation Resistor Protection, and Output Over Current Protection. The Inverex company provides 5 years of warranty and you can claim the warranty from different authorized dealers.

Inverex dealers and service centers are available in different cities in Pakistan. This inverter can also work without batteries so you do not need to attach batteries if you do not want to spend money on the batteries. This latest solar inverter model in Pakistan also supports generator connection and its touchscreen display makes it easy to change its settings.

According to our experience, if you install solar panels up to 7800 watts, it gives you AC wattage up to 5900. In this AC wattage, You can run 2 air conditioners (DC Inverter) of 1.5 tons, a refrigerator, an LCD TV, Lights, an iron, a water pump, Laptop, and some fans. This hybrid inverter is IP65 waterproof and you can install it outdoors.

You can also install an Inverex Power wall battery pack with this 48-volt hybrid solar inverter. This single-phase inverter Lithium batteries, dry batteries, Tubular batteries, and other types of batteries are also compatible with it. It has options of attaching two different types of load (Heavy, Normal). Inverex 6kW inverter solar charger is 135 ampere.

This solar inverter model is now available in red color. For communication with an application, a wifi logger comes with this device. This is a 48-volt model and you need at least 4 batteries of any type.

Inverex Nitrox 5kW Hybrid Inverter

Inverex 6kw hybrid inverter

This hybrid 6kW inverter has dual MPPT, so with this feature, you can install solar panels of 600 wattages up to 7800 watts in total. You can also attach different wattages of solar panels of different brands including Longi, Canadian, Trina Solar, Jinko, JA, and others.

It has two MPPT charge controllers. So you can attach 1 string with the first MPPT and the second string with the second MPPT (A total of 2 strings). The inbuilt solar charger is 210 ampere. Its MPPT voltage range is between 150 volts to 425 volts and MPPT efficiency is greater than 99%.
