The Journal of Circular Economy is an interdisciplinary journal that aims to provide practical advice to businesses, policymakers, and civil society on accelerating the transition towards a more circular economy.

This journal is a collective effort by leading circular economy scholars and practitioners around the world who are excited about furthering the discourse on the concept of circular economy. All our articles are open access and oriented towards practical application. We pay our editors and reviewers, and we aim to offer peer-review that is fast and constructive.

We are keen to help you publish your research.

The Journal of Circular Economy publishes circular economy research which provides practical advice for businesses, policymakers, and civil society to accelerate the transition towards a more circular economy.

This journal operates via a drag-and-drop system for submissions. Please drag and drop your submission as a single file (acceptable formats: PDF, Word) below.

We operate under "Your Paper, Your Way". This means that no specific formatting is required for any submission to the Journal of Circular Economy. Upon acceptance, formatting requirements apply, please see here.
