

Lifepo4 lithium battery 300ah

Lifepo4 lithium battery 300ah

?Large Capacity & Low Temp Cutoff?The 12V 300Ah LiFePO₄ battery, featuring LiFePO₄ cells, offers high quality and high energy density with improved stability. This ensures the feasibility of long-term recycling. Additionally, the low-temp cutoff protection prevents battery damage in low-temperature environments.

?Touch Screen & APP Monitoring?Discover convenience with our 12V 300Ah Lithium battery. Its user-friendly design includes a touchable smart display for easy monitoring and control from anywhere. The built-in Bluetooth feature lets you access battery information on your phone - simply download our app following the provided instructions.

?200A BMS & 100% Safety?Our lithium battery, with a built-in 200A BMS, offers all-around protection against overcharge, over-discharge, over-current, overheating, and short circuits. Its stable LiFePO₄ ensures safety, even in high-temperature or impact situations. Environmentally friendly and free from heavy or rare metals, it provides peace of mind for worry-free use.

?Light Weight & Higher Capacity?LiFePO₄ lithium iron battery weighs just 58.421 lbs, making it smaller and 1/3 the weight of a lead-acid battery with the same capacity. This lightweight design facilitates easy carry and placement. Expandable up to 10 in parallel or 4 in series (Max 4P4S), it offers increased capacity and higher voltage options (24V, 36V, 48V). Say goodbye to worries about weight and limited capacity.

?Various Application & 5-Year Service Life?Mount our lithium battery in any position - perfect for marine, RVs, campers, travel trailers, and off-grid use. TEMGOT ensures your satisfaction with a five-year service life. For any questions, our friendly 24/7 customer support is here for you.

Estimated to be delivered within 2-5 business days.

Exclusion of Hawaii (HI), Alaska (AK), and Puerto Rico (PR)

I purchased two Temgot 12V 300Ah lithium batteries for our RV. They weigh the same as the two 12V 100Ah

Lifepo4 lithium battery 300ah

lead acid batteries with six times the capacity. This will greatly increase our ability to boondock/dry camp.
