We feature offers with an Add to Cart button when an offer meets our high standards for: Quality Price,Reliable delivery option, andSeller who offers good customer service "No featured offers available" means no offers currently meet all of these expectations. Select See All Buying Options to shop available offers.

Compared with lead-acid battery, the LiFePO4 battery has higher capacity, lighter and much better. It should be noted that the cell would be possible to be at a over-discharged state by its self-discharge characteristics in case the cell is not used for long time.

In order to prevent over-discharging, the cell shall be charged periodically to maintain between 6V and 6.8V. Over-discharging may causes loss of cell performance, characteristics, or battery functions.

Specification: Capacity: 6.4V 6000mAh 38.4Wh.

Do not modify or disassemble the 6 volt LiFePO4 battery.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

&quot;...LED indicator that shows the remaining charge, making it easy to monitor its performance....&quot;
