

Magnet alternator for wind

Magnet alternator for wind

Hurricane Low Wind PMA"s have the ability to reach cut in i.e produce power when ...

Advantages of Innotec's Wind Turbine Alternators:

Our customers have been using our permanent magnet generators for wind turbines for many years. Many of our high production run designs come out of the requirements from this end user group. Through experimentations our permanent magnet generators have consistently proven to be the most powerful and cost effective solution in the market. The low rpm performance stands out above any alternatives in the industry. We design to meet our customers" requirements. Our wind permanent magnet generators have been designed for either single phase or three phase configuration.
