Microsoft 365 plans for home or business include the robust Microsoft 365 desktop apps that you're familiar with, like Word, PowerPoint, and Excel. You also get extra cloud storage and cloud-connected features that let you collaborate on files in real time. With a subscription, you'll always have the latest features, fixes, and security updates along with perennial tech support at no extra cost. You can choose to pay for your subscription on a monthly or yearly basis. The Microsoft 365 Family plan also lets you share these subscription benefits with up to five additional people.

Most of the Microsoft 365 plans for business, schools, and non-profits include the fully installed desktop apps, but Microsoft also offers basic plans with the online versions of Microsoft 365, file storage, and email. You decide what works best for you: Small business, Enterprise, School, or Non-profit.

However, there are no upgrade options, which means if you plan to upgrade to the next major release, you'll have to buy it at full price.
