

Microtek inverter official website

Microtek inverter official website

An uninterruptible power supply (UPS) is one of the most critical power components in a data center. However, the role of batteries used in UPS power supplies is often overlooked. If the mains of the data center fails, the battery of the UPS power supply

5th Floor, Building 11, Rundong Sheng Industrial Zone, Longzhu Community, Xixiang Street, Baoan District, Shenzhen, China - 518126

+86 755 2778 1380 (Building 510)

+86 755 2790 2204 (Building 511)

Top grade Micro Processor - Optimum Reliability

Boost and Buck AVR-Ultimate Voltage Stabilization

Protection against Overload, Discharge/Overcharge

Microtek Solar Management Unit (SMU) converts any existing inverter into a solar system has in-built intelligence to maximize use of solar energy and is ideal for various DC voltages.

Microtek Isolators are high grade switch disconnectors used generally at both ends of circuit breaker. They make, carry, and break currents under normal circuit conditions including overload or specific abnormal circuit conditions such as short circuit for a specified time.

Experienced R & D team of 100+ staff provides customized & One Stop Solution for Power and Energy equipment with Cost & Lead time optimization.

Flexible production lines and dedicated mass production lines. We can support High mix & low volume solutions

With over 3 decades of experience in power solution industry.
