Prints and posters give walls and spaces a new level of interest and excitement. The National Gallery London Gift Shop includes print choices and art prints that resonate. There are many other gallery gifts online, with lots of gifts tailored for art enthusiasts. There's everything from puzzles and games with an artistic twist, through to jewellery, soft toys and tote bags.

The link between gifts and the art gallery continues in our products with an educational angle. Books like Picture This! - a kids guide to great artists and paintings - and the Katie range of books by James Mayhew, which turns famous artworks into an adventure for children, can help young artists to get inspired with items that feed their creativity. Take a look through the gift gallery and see all that the National Gallery Shop contains.
