In a significant step, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project. This groundbreaking initiative is supported by The Global Energy Alliance for People and Planet (GEAPP's) concessional loan amounting to 70% of the total project cost and is in partnership with IndiGrid and BSES Rajdhani Power Limited (BRPL). India is a first-mover country in the BESS Consortium, a multi-stakeholder coalition launched by the GEAPP Leadership Council, which is focused on scaling just energy transitions worldwide.
