The Commission was created by and performs its operations based on the guidelines as stipulated in the Electricity Act 2023.

Promote and ensure an investor-friendly industry and efficient market structure to meet the needs of Nigeria for safe, adequate, reliable and affordable electricity.

1. Leadership: excellence, transparency, courage and discipline2. Professionalism: proficiency, diligence, respect, fairness and accountability.3. Teamwork: creating an environment of loyalty, trust, collaboration, and stakeholder engagement.4. Good Governance: making decisions in a fair, transparent and consistent manner, in compliance with the laws of Nigeria and our regulation.

The Nigerian Electricity Regulatory Commission is an independent body, established by the Electric Power Sector Reform Act of 2005 (repealed), now the Electricity Act of 2023 to undertake technical and economic regulation of the Nigerian Electricity Supply Industry. The Commission is to, among others license operators,

determine operating codes and standards, establish customer rights and obligations and set cost reflective industry tariffs. The Commission has its head quarters in Abuja, and currently has presence in most states of the country through its Forum Offices which function as the first level of escalation for customer complaints that are not resolved by the electricity distribution companies (DisCos).

The Electricity Act 2023, provides for the tenured appointment of seven Commissioners, with one of them designated as Chairman/Chief Executive Officer, and another as Vice Chairman. The Commissioners are nominated by the President and confirmed by the Senate. The Commission is made up of seven Divisions, each with its strategic role in ensuring the smooth running of day to day activities of NERC.
