## Octopus energy price list

Our tariffs. Pop in your postcode to get a full list of our available and historical tariffs, and a price breakdown of each. Want to switch to Octopus? Or if you're an existing customer and you want to switch tariffs, go to change my tariff on your online account dashboard. Want help choosing? Try our easy guide to fixed and flexible tariffs.

Octopus Energy offers real-time energy pricing, providing customers with transparent and up-to-date costs for their power usage.

Get the latest unit rates for gas and electricity on the Octopus Tracker Tariff, with graphs showing the price trends and price differences all over UK.

Track the real cost of energy. We update Tracker prices every day based on an independently published wholesale market price, calculated using our transparent formula. In warmer months, prices tend to be lower, then typically increase - likely double - in colder months.

Business - All our tariffs - Octopus Energy

Modern slavery statement.

In order to provide you with the latest digital energy web services you need to use the latest and greatest web browsers.

Update your browser for a better web experience, here and all over the internet.

The 24.5p electricity price cap is set by Ofgem. Agile prices can go above the price cap! When this happens, you'll see an exclamation icon. You can modify the cap below.

This page shows a summary of historic trackerrates. You can also show details for just electricity or gas.

These rates represent the average across the entire country. To see the most accurate values, please choose your region:

Octopus Energy offers a range of different tariffs: from standard fixed and variable tariffs to really innovative plans that help customers maximise their green energy usage while also being more energy-efficient. Plus, all Octopus Energy tariffs use 100% renewable energy!
