It's America's Game! For 30 years, Powerball has captivated the world ...

Powerball is an American lottery game offered by 45 states, the District of Columbia, Puerto Rico and the U.S. Virgin Islands, and overseen by the Multi-State Lottery Association (MUSL), which also manages other large jackpot games such as the Mega Millions. Drawings are held three times weekly on Mondays, Wednesdays, and Saturdays at 10:59 p.m. Eastern Time, at the Florida Lottery's headquarters in Tallahassee.

Powerball is known for producing some of the largest lottery jackpots in history, including the record-breaking \$2.1 billion jackpot won by a ticket purchased in Altadena, California, in 2022.

Alabama, Alaska, Hawaii, Nevada, and Utah do not have state lotteries.

Powerball's predecessor began in 1988; the multi-state game was known as Lotto America. The game, and name, were changed to Powerball on April 19, 1992; its first drawing was held April 22.

Dr. Edward J. Stanek was president of the Iowa Lottery, and along with Steve Caputo, invented the Powerball game.

When it was launched in 1992 Powerball became the first game to use two drums. Using two drums to draw numbers from, offers more manipulation by simultaneously allowing low jackpot odds, numerous prize levels and high overall odds of winning (as explained later, a ticket can win by matching only one number). The two-drum concept was suggested by Steve Caputo of the Oregon Lottery. The two-drum concept has since been used by The Big Game (now Mega Millions) in the US, Australia's Powerball, Thunderball in the UK, Eurojackpot and EuroMillions.
