Ovo contact telephone number

OVO Energy Ltd.2009,Bristol,OVO Energy?OVO Energy???

Can't work out how to get in touch with OVO? We've got the OVO Energy contact numbers you need to talk to the right person.

Speak to an expert and have your query resolved in minutes.

When you're getting in contact with your energy provider, it can be tricky to work out who to call to answer your questions. We've brought together all the OVO Energy contact numbers you might need to get to the bottom of your problem.

There are a few ways you can contact OVO Energy to submit your meter readings:

OVO Energy are currently rolling out second-generation smart meters and have a tariff dedicated to new customers who don't yet have one installed. It has much lower rates than their other tariffs, saving you up to ?119 per year! To find out more, give Utility Switchboard a call on 020 3992 7717.

Did you know that with a smart meter you may never have to submit a meter reading again! 100% accurate bills, all the time. Give us a call to find out more about automatic meter readings.

OVO's prepayment meters have now been passed over to Boost Power, so if anything happens to your key or card, you should contact Boost instead.

If you need a replacement, you can call 0330 102 7517 or 0117 332 3728 to talk to Boost. They'll give you an 8-digit code to take with you to your local PayPoint to pick up your new key or card.

Bear in mind that you might have to pay for your replacement key or card. They normally cost ?5 per replacement and will be paid through your top ups.

When you have your new key or card, you'll have to activate it in your meter by putting it in for at least a minute. Don't top up until it's been activated or you could lose what you've put on already.

You can pay your bills and make extra payments through your online account. Whether you're topping up your smart prepayment meter or paying a bit more to cover extra costs, it's a super simple process.
