Streamline your designs with an easy-to-use interface that seamlessly integrates a single design across multiple platforms like Autocad, PVsyst, and the SolarEdge Monitoring Platform.

Eliminate design mistakes and ensure that your SolarEdge PV projects comply with the latest SolarEdge design rules

Enjoy free automatic upgrades with no license or subscription fees. SolarEdge Designer is included in the SolarEdge software ecosystem.

HD satellite imagery, AI-assisted 3D modeling and roof detection give you a clear and exact picture of the rooftop, so you can show your customer an accurate representation of what their roof will look like.

Automatic population of the rooftop using an irradiance map and shading analysis optimum placement of the solar panels, so you can deliver the best possible layout to your customer.

Get the most out of the solar system with automatic electrical design calculation providing you with the best recommendation for highly efficient solar system planning. Including automatic stringing and DC cabling. Battery & backup for smart load management.

Generate accurate sales proposals, ensuring your customers get the full picture on the spot. With energy simulation, financial analysis and ROI forecasts, your customers will get in-depth insight into exactly how much energy they"re using and how much they can save.
