Jordon Gilewski is the founder and CEO of Solar Energy Solutions of America, a company specializing in helping you save with Solar Solutions for both your home and business. After serving in the Navy for four years, Jordon wanted to start a business that helped the people around him. Jordon has been in the Solar industry for close to six years, starting as an installer by trade. He began Solar Energy Solutions of America in 2018 after becoming extremely knowledgeable on the future benefits of going Solar. His company is nationally recognized by the Better Business Bureau and has hundreds of five-star reviews.

Jordon's family moved from Algonac, Michigan to Cape Coral, Florida in 2006. Growing up with a large family of successful Business Owners, he was an entrepreneur at a very young age and has always been inspired to own his own business. He takes extreme pride in being a local business where his customers can always be sure he will be there when they need him. His company is strongly based on being personable, honest, and to always "under-promise and over-deliver". A beautiful install from start to finish is something that his team will always plan to achieve!

Pool solar panels cape coral

Jordon is very Family oriented; he runs his business alongside his younger sister Hayley and employees that are very close to him. In Jordon's free time, he enjoys working on home projects, boating and prioritizes spending time with his wife and two kids when the workdays are over!
