

Port moresby energy independence

Port moresby energy independence

The government has reiterated its ambition to achieve carbon neutrality by 2050, with an interim target of a 50-percent reduction by 2030, at the recent Petroleum and Energy Conference 2024. Recent reports indicate progress, particularly in the agriculture, forestry, and other land use sectors, which have successfully met initial CO2 reduction targets....

This year's Petroleum and Energy Conference (PEC) attracted an impressive 580 delegates from around the world to Papua New Guinea (PNG), which is the highest attendance to date. The Managing Director for Kumul Petroleum Holdings Limited, Mr. Wapu Sonk, expressed optimism for future events, stating: "I look forward to a better and bigger event next year..."

The Papua New Guinea (PNG) Minister for International Trade and Investment, Hon. Richard Maru, said PNG is still facing a pressing energy crisis, nearly half a century after gaining independence. Minister Maru underscored the urgency of the country's energy challenges, stating: "We cannot pretend, we can't keep talking about providing for other countries..."

Prime Minister James Marape invited international investors and energy experts to collaborate with Papua New Guinea (PNG) in harnessing its diverse energy resources, including hydro, geothermal, and solar power, during his keynote address at the opening of the 2024 Petroleum and Energy Conference at the Hilton Hotel in Port Moresby. "We offer strong in..."
