Another lithium battery has arrived at my doorstep - the Power Queen 12V 100Ah lithium battery.

It's yet another affordable 100Ah LiFePO₄ (lithium iron phosphate) battery suitable for different applications.

Personally I use these type of batteries to make my own power stations, but it also makes a great upgrade for RV campers.

You do need to make sure the converter charger in your RV supports lithium. If it does it's a drop-in replacement.

Is it just like every other 100Ah Lithium batteries?

In a lot of ways, yes. What makes this battery different from the others is the button between the terminals.

I'll explain how it works down below, so let's get right to the specifications.

Table of Contents show The Smart Power Queen 100Ah Battery Has One Feature Most Other Batteries Don't
Power Queen 12V 100Ah Smart LiFePO₄ Battery - Specifications Battery Cells Ratings - Ampere hours (amp hours) and watt-hours Safety features with built-in BMS Cycle life Expandability Design and what's included
Size and weight Review And Test Results What I Like What I Don't Like Frequently Asked Questions Is it a drop-in replacement for my RV battery? What inverter do you recommend? How do I charge the battery? How do I charge it with solar panels?
