

Renewable electricity bridgetown

The Caribbean Centre for Renewable Energy and Energy Efficiency (CCREEE) is an institution of CARICOM with a mandate to promote renewable energy and energy efficiency investments, markets and industries in the Caribbean. CCREEE aims at improving access to modern, affordable and reliable energy services, energy security and mitigation of negative externalities of the energy system (e.g. local pollution and greenhouse gas emissions) by promoting renewable energy and energy efficiency

Other quick facts:

On 17th March, 2014 the SIDS Sustainable Energy and Climate Resilience Initiative (SIDS DOCK), the United Nations Industrial Development Organization (UNIDO) and the Government of Austria signed a Memorandum of Understanding (MOU) to assist Small Island Developing States (SIDS) in Africa, the Caribbean, the Indian Ocean and the Pacific in the creation of a network of regional sustainable energy promotion centres.

To increase the knowledge base, data exchange and local capabilities to provide goods and services to the local sustainable energy market

To increase access to reliable, affordable, cleaner and sustainable electricity services and cooking solutions for the population

To reduce energy intensity and resource consumption with cleaner working practices and to be more socially & environmentally responsible

To reduce the environmental impacts of transport, increase energy efficiency and reduce CO2 emissions

To address financial constraints and finance capacity / knowledge challenges impacting the development of sustainable energy projects

To contribute to increasing climate change resilience of the CARICOM countries

To increase energy / resources efficiency and transform the building sector into a sustainable, greener and climate-change resilient one
