Res battery storage

Battery energy storage systems (both mobile and stationary), with its falling ...

Our passionate and experienced people deliver successful clean energy projects globally.

Working together to transform the future of clean energy, your local community receives wide-ranging benefits.

With our passionate people, innovative solutions, and collaborative approach, we're transforming the way energy is generated, stored, and supplied.

A global delivery partner for clean energy construction projects.

Managing construction of clean energy assets on behalf of investors and owners.

We ensure ongoing performance and extend your asset lifecycle by maintaining and improving renewable energy assets, so they perform for longer.

Highly skilled engineers and technical specialists provide first-class operations and maintenance support.

Providing specialist consultancy and advisory services throughout the full project lifecycle across wind, solar and energy storage.

Our novel and sophisticated parts management process helps your projects perform more efficiently and reduces downtime.

Maximise your energy assets' performance and value with our expert diagnostic and data services.

Increasing annual energy production on your turbine by up to 5% through improved aerodynamics.
