The energy industry across the world has developed significantly over the last ...

Our team completes construction of 2.2GW of new renewable projects in 2020 ...

RES Group (Renewable Energy Systems), 40 ? 2023, 23, 12 ? 14 / 2500,??

GB,Hertfordshire,Kings Langley,WD4 8LR

US,Colorado,Denver,80202

CA,Quebec,Montreal,H2T 2A4

DE,Baden-W?rttemberg,V?rstetten,79279

GB,England,Truro,TR1 2PH

GB,Wales,Cardiff,CF23 8RD

Our RES colleagues come from various backgrounds, each bringing a wealth of experience and expertise to our projects.

In this #TeamRenewables, we spoke to Rebecca Crump, Director of Asset Management, to learn about her new role leading the Asset Management division in the Americas.

Rebecca has been passionate about environmental and climate issues from a young age. For her 3rd-grade second language speech, she presented on Chlorofluorocarbons (CFCs) and their harmful effects on the Earth's ozone layer. In the early 1980's, Rebecca's father installed solar collectors on their roof to heat their water, introducing renewable energy to her family.
